

Our Mission and Purpose:

In 1994, a group of committed individuals came together and established a permanent endowment to focus solely on improving the lives of women and girls in the Fox Valley region. Their dream, which is now the heart of the Women's Fund's mission: to invest in women and girls through grants, advocacy and education.

Funding Priorities:

The Women's Fund believes through philanthropy and community collaboration we can address the needs of women and girls in the Fox Valley region. We provide grants for programs that inspire women and girls to flourish personally, economically and professionally. Our priorities include:

- ❖ Women and girls live in safety.
- ❖ Women and girls meet their basic needs for living, including food, shelter, and access to health care.
- ❖ Women and girls have the knowledge, opportunity, and self-determination to be economically secure.
- ❖ Women and girls have opportunities to pursue their dreams and achieve their potential.
- ❖ Women and girls are empowered and inspired to:
 - Learn about and experience the value of philanthropy, including volunteerism.
 - Mentor and encourage others.
 - Recognize, develop and apply their leadership skills personally and professionally.

Social Change Focus:

The Women's Fund encourages applicants to think beyond service delivery to the social climate which fosters a lack of safety, economic security, and access to opportunity for women and girls. When planning your project or program, consider how you might incorporate one of the following Social Change Indicators in your work.

- **Shifts in Definition:** The issue is defined differently in the community or larger society.
- **Shifts in Behavior:** People are behaving differently in the community or larger society.
- **Shifts in Engagement:** People in the community or society are more engaged.
- **Shifts in Policies:** An institutional, organizational or legislative policy or practice has changed.
- **Current Position Maintained:** Past gains have been maintained.
